California Council of the Blind (CCB) is a statewide 501(c)3 organization with local chapters that support blind and visually impaired people in diverse ways.

Our goal is to encourage self-sufficiency, independence and full participation in society. Since 1934, CCB has been the largest consumer organization of persons who are blind or visually impaired in the state and is continuously advocating to improve their lives.

By utilizing our published resources and CCB membership, we are able to help people who are blind or encountering vision loss to access useful referrals to various agencies and peer mentors.

CCB is committed to community support, which allows us to further help persons who are blind or visually impaired gather resources and gain accessibility to services that will make a difference in their lives.
